📁 PROJECTS

School management System [📄](#)

This project is done for Dktuition College

OlympicGame [📄](#)

This project is related to Olympic game and broadcast

Ecommerce site [📄](#)

Final Year project, python based using Mysql online product selling

websites name MYSHOP

Blog website [📄](#)

This is blog website design by python with django and Html ,css

and Javascripts and Mysql

Live Steaming sync

This project is done based using React,django rest framework and postgres

Face Recognition Website

Developed a **Face Recognition Website** using **Python, Django, and Machine Learning**, integrating **OpenCV and deep learning models** for real-time facial detection and recognition. The system processes images/videos, identifies faces, and ensures seamless user authentication
